DAM LINE OF GAZELLA D.B.

Gazella d.b. was one of the three cornerstone broodmares (with Mlecha d.b. and Sahara d.b.) imported in 1845 by Juliusz Dzieduszycki to the stud in Jarczowce. Her bloodline in Polish breeding is represented by a huge family established by GAZELLA II 1914 and two separate "M" strains via the mare MANILLA 1955 in Michałów and MACIEJKA 1961 in private breeding. GAZELLA II miraculously survived World War I and went on to be an exceptional broodmatron by producing invaluable daughters who not only prolonged the line by establishing their own significant families, but foaled chief sires vital to Polish and world breeding (WIELKI SZLEM, WITRAŻ, COMET & NEGATIW). The bloodlines of GAZELLA II's daughters: ELEGANTKA 1923, FRYGA II 1924 & JASKÓŁKA II 1928 remained in Poland (in the case of the latter two solely through single daughters in the shape of OFIRKA & WILGA), whereas TARASZCZA 1937 was confiscated by the Soviets in 1939 and her bloodline was restored to Polish breeding through the purchase of her Tersk-bred granddaughter PORFIRA. Today the damline of Gazella d.b. is not only one of the largest in Poland, but also boasts the greatest impact on modern Polish Arabian horse breeding.

DAM LINE OF MILORDKA

Notable horses from the family of ESTOKADA:

Born around 1810 in Sławuta, Milordka is the foundress of one of the oldest damlines in Poland. Her bloodline is present in Polish breeding today via three broodmares: ELA 1951, PARMA 1966 & SAGA 1936 (through her two daughters: CANARIA 1942 & ESTOKADA 1951). ESTOKADA is famous as the progenitor of Michałów's largest family, the "E" dynasty of multi champions, including such luminaries as EMIGRACJA, EMANDORIA & EKSTERN. CANARIA is remembered as the dam of chief sire CELEBES and GERWAZY – grandsire of US sire of importance ALADDINN. ELA is responsible for Białka cornerstone broodmare EMKA and Michałów's EGZOTYKA with her champion produce. Whereas PARMA is a Tersk-bred granddaughter of Janów Podlaski's WALNA, confiscated by the Soviets in 1939. PARMA was purchased at Tersk as a two year old in 1968 to bring back that bloodline. She proved to be a broodmatron of immeasurable value as the dam of an incredible number of 5 champion chief sires: PARTNER, PARYS, PASAT, POLONEZ & PAMIR.

DAM LINE OF MLECHA D.B.

Notable horses from the family of ŁYSA:

Mlecha d.b. was one of the three cornerstone broodmares imported in 1845 by Juliusz Dzieduszycki to the stud in Jarczowce. Her damline is represented in Polish breeding by two of her female descendants: ŁYSA 1915 & POMPONIA II 1924. POMPONIA II lives on through three sub-families of TREMA, CEREKIEW & BOKATA, whereas ŁYSA has forever etched herself in the history of Polish breeding with daughter SAFTA (the progenitor of Janów Podlaski's "S" dynasty of racing champions) and granddaughter BAŁAJKA. DAM LINE OF SAHARA D.B.

Notable horses from the family of ZULEJMA:

Sahara d.b. was one of the three cornerstone broodmares imported in 1845 by Juliusz Dzieduszycki to the stud in Jarczowce. Her damline lives on through ZULEJMA and her Janów Podlaski-bred descendants: EPIZODA 1944 (and the latter's two daughters, DARIBBA & EPIGONA) and DZIWA 1922 (dam of OFIR and progenitor of Białka's "M" line). DARIBBA found her home in Michałów, while EPIGONA went on to produce just one daughter, but what a daughter it was. EUNICE, dam of 16 foals, established her own dynasty in Janów Podlaski with chief sire extraordinaire and Poland's first National Champion EUKALIPTUS and his champion broodmare sister EUROPA

DAM LINE OF SZAMRAJÓWKA

Born around 1810 Szamrajówka's damline is one of the oldest in Poland and one bearing the most interesting history. Szamrajówka's 8th generation, the Polish-bred mare HARDJA, was sold abroad, where she ultimately found her way to Yugoslavia. Her granddaughter KEWA (bred at Inocenzdvor Stud) was purchased by the State Studs in order to restore the invaluable bloodline. However soon came 1939 and the confiscation of Janów Podlaski Stud by the Soviets. KEWA and her year old Janów Podlaski-bred daughter WŁODARKA survived the march to Tersk, where the latter made a phenomenal career as a broodmare. Among her superb produce was PIEWICA, purchased by the Polish State Studs after competing in races at the Wrocław track in Poland. PIEWICA went on to become an exceptional broodmatron, with an astounding number of show champions. Suffice to say this lot includes the legendary PILARKA, PIECHUR, PIPI, PENTODA and most recent star - PIANISSIMA. Through PIEWICA the damline of Szamrajówka is the largest and most renowned Janów Podlaski bloodline in the world today.

DAM LINE OF SZWEYKOWSKA

Notable horses from the family of WERBENA:

The damline of the born around 1800 Szweykowska is the oldest documented bloodline in Poland. It is represented in Polish breeding by two families founded by WERBENA 1945 & FANFARA 1945. WERBENA's line was prolonged by her two daughters - WATAHA in Kurozwęki and WADERA in Michałów, the latter of which is considered one of the strongest and most important in Poland. This damline is especially known for its hardy Kuhailans, the best of these including WARMIA, WILEJKA, WOJŚLAW & WIAŻMA. Whereas the Janów-bred FANFARA reinforced the Klemensów-Michałów herd, establishing an "F" subline, present today in Poland at Michałów, Janów Podlaski and in private breeding.
